To be a world-class organization dedicated to creating and supporting an environment that promotes the achievement of optimal individual, family and community health.

The Orange County Health Care Agency is a dynamic organization that is committed to meeting the health needs of the diverse Orange County community. It is lead by our Agency Director and a skilled executive team with an organizational structure comprised of four service areas: Behavioral Health; Medical and Institutional Health; Public Health; and Regulatory Health.

Nursing services are provided in a variety of environments to meet the needs of the growing population in Orange County.

Health Promotion
Public Health Nurses provide professional education and provider technical assistance. They work in programs serving individuals in our community with multicultural backgrounds who require medical care and education to maintain healthy lifestyles.

Public Health Nursing
Public Health Nurses provide nursing assessments, interventions, and case management to individuals and families in homes and the community. Field Nursing services include communicable disease investigation, high risk maternal, infant, child, and adolescent health. Other programs include the Nurse-Family Partnership for pregnant and parenting teens, Bridges for Medically High Risk Infants, Calworks Public Health Nursing, Child Abuse Services Team, Foster Care Public Health Nursing, Preventive Health Care for the Aging, Perinatal Substance Abuse Services Initiative/Assessment and Coordination Team, and the Senior Health Outreach and Prevention Program.

Disease Control & Epidemiology
Clinics provide testing, treatment, and case management for tuberculosis, HIV/AIDS and sexually transmitted diseases. Nurses in Epidemiology and Assessment investigate, report and provide information to the community on the prevention of diseases such as chicken pox, measles, hepatitis, and parasites, as well as food borne outbreaks and disease clusters. The Bioterrorism Preparedness and Planning Program develops and implements disaster response, readiness plans and exercises.

Family Health Services
Staff Nurses, Public Health Nurses, and Medical Assistants provide immunizations, reproductive health services, and health services for well and sick children and adolescents in clinic settings. Public Health Nurses participate in consultations/technical assistance to community providers and work with community organizations to improve access to care in specialty areas such as Perinatal Access, Child Health and Disability Prevention Program, Immunization Assistance Project, Childhood Lead Prevention Program, Hepatitis B Prevention and Program Quality Assurance. They also provide case management for patients with special conditions.

Behavioral Health Services
We provide culturally competent and client-centered services for county residents in need of treatment for alcohol and other drug abuse and mental health care.

Alcohol/Drug Abuse Services
Behavioral Health Nurses and Staff Nurses provide assessment, evaluation, case management, and medication services to adolescents and adults in a variety of specialized substance abuse/dependency treatment settings.

Adult Behavioral Health Services
Adult Mental Health Services provides care for the mental, emotional and/or behavioral disorders which impair a person’s ability to fully function in the community. Behavioral Health and Comprehensive Care Nurses provide nursing support in both inpatient and outpatient settings to transitional age youth, adults, and older adults.

INSTITUTIONAL HEALTH SERVICES
Comprehensive Care Nurses, and Medical Assistants provide 24-hour nursing services in correctional and institutional settings. Traditional, flex, and 12-hour shifts are available.

Correctional Medical Services
Correctional nursing is a specialized, challenging, and growing field. Nurses in a correctional setting work with patients presenting a wide variety of acute and chronic health problems. Nursing services provide include assessment and evaluation of inmate medical needs, patient teaching, emergency care, physical examinations, and medication administration. Correctional Medical Service nurses work as valued members of an interactive team comprised of physicians and nurse practitioners, as well as dental, mental health, and public health professionals.

Correctional Mental Health
Correctional Mental Health provides adult mental health services including 24-hour emergency triage and crisis intervention, suicide prevention, including a 24-hour crisis stabilization unit (beds), individual and group therapy, and substance abuse counseling, medication assessment and discharge planning to adult inmates in the County’s five adult correctional facilities.

Juvenile Health Services
Nursing services, including triage, sick call, emergency response, post operative observation, detoxification protocols, health education and case management, are provided to residents of various juvenile facilities including Juvenile Hall and Orangewald Children’s Home. Nurses with pediatric experience are highly desired.

LICENSE REQUIREMENTS
All Registered Nurse positions require a license issued by the California Board of Registered Nursing. Licenses will be verified by the agency prior to hiring.
