Diagnosis Treated Today :

1. Other stressful life events affecting family and household (Z63.79)
2. Conflicting stages of grief among family members (SNOMED - 424068007)

**Purpose of Visit:** Z63.79 Other stressful life events affecting family and household; 424068007 Conflicting stages of grief among family members. Client and family's immigration trauma has created problems in family having positive experiences and time together. Father tends to not spend time at home, even if he is not at work. Mother is often busy at work and taking care of the household, and the children tend to stay isolated from each other in their own rooms.

**Intervention PN:** Therapeutic activity - educated family on need to play and find enjoyable activity that everyone can go. Found soccer team that Cal can participate in and family can come to his games to cheer and support him, with the goal of creating positive experience and support from the family for Cal and develop social relationships and community support for the family. Parents were hesitant with time factor, but agreed that this would be a good investment for the family as they do not do anything together except for sleep, eat and go to school or work.

**Peer Support PN Plan:** Will follow up with family to see how first soccer game was and plan to attend the first game with the family and model support as well as engaging the family with the community.

Goodenough, Stuart I'm - 9/7/2023 3:16 PM PDT

**Billable Services**

**Service:** Self-help/Peer svcs (15 min incr) (70899-421)

**Service Minutes:** 55 minute(s)
