**BH MHS Assessment**

*Encounter Smart Template* : Facility: CYS CEGU  
FIN: 100022284089

**Diagnosis Treated Today :**

1. Post-traumatic stress disorder, acute (F43.11)
2. Separation anxiety disorder of childhood (F93.0)
3. Enuresis not due to a substance or known physiological condition (F98.0)
4. Homelessness unspecified (Z59.00)

**Purpose of Visit :** Assessment 90791 with 70899-411 (T1013) Supplemental Service (Oral Interpretive Services)

**Intervention :** CEGU OD clinician undersigned met with client and CEGU MHW who served as the oral interpreter for this service. Interpreter provided translation assistance in Spanish to assess client's mental health functioning following hospitalization and plan to transition and re-enter into Orangewood placement. Client was psychiatrically hospitalized due to crisis incident of losing foster placement and being separated from her 13 year old cousin. She threatened to harm herself, resulting in hospitalization due to DTS. Client's primary therapist was unavailable for assessment session, so the undersigned OD conducted the re-assessment. Provider gathered information from client on her understanding of why client was hospitalized from her foster placement and was sent to the hospital, and reassessed for her readiness to return to the cottage setting. Processed her fears of being separated from her cousin and talked about her desire to eventually go back to the foster care where her cousin is at. Provided reassurance to client that arrangements will be made for her to see her cousin as soon as arrangement could be made and client's anxiety could be stabilized about being separated again.

**MHS Assessment PN Plan :** Client will return to Orangewood Cottage. OD will consult with primary therapist regarding feedback regarding clinical observation and input from interaction with MHW who provided Oral Interpretive services today. The information will be integrated into client's assessment and care plan.
