BH Assessment Entered On: 10/24/2023 1:22 PM PST
Performed On: 10/24/2023 12:42 PM PST by Roy LCP, Niyati Gupta

DOMAIN 1

I am a Licensed or licensed waived provider. : Yes

Roy LCP, Niyati Gupta - 10/24/2023 12:42 PM PST

Presenting Problems : Adriana is a 6 year old Honduran female who was re-referred to CEGU due to failed foster home placements. She has presents with symptoms of anger, aggression, low frustration tolerance, poor anger management, yelling, uncontrolled crying and isolation. After being placed at Orangewood foundation for 3 months, Adriana stabilized and was placed in her 1st foster home. Due to continued anger and aggressive presentation she continued to fail 3 foster homes leading to her return to Orangewood. Client has a history of trauma that can be reviewed in the BH Assessment completed on 12/16/2022. Additionally, client has had an increase in trauma due to being separated from her cousin at the last foster home. She was also recently hospitalized due to making statement of danger to self when she was separated from her cousin.

Roy LCP, Niyati Gupta - 10/24/2023 12:42 PM PST

History of Presenting Problem : Adriana's detailed history can be reviewed in the BH Assessment completed on 12/16/2022.

Additionally, she has continued to show similar aggressive behaviors at all her foster homes leading to failing these placements. Her symptoms are not as severe and more manageable in her current placement due to Orangewood having 24/7 staff support available to the client.

Roy LCP, Niyati Gupta - 10/24/2023 9:10 AM PST

Patient: **Luz, Adriana**MRN: **1000-xx-xxxx****Evaluations**

blanket or requesting to speak to CEGU staff.

Emergency Contact : SSW*Phone Number :* 714-123-4567*Emergency Contact :* CEGU*Phone Number :* 714-935-6363*Was a support person informed about the Safety Plan? :* Yes

Roy LCP, Niyati Gupta - 10/24/2023 1:39 PM PST

If yes, who was informed and what is their role in the client's life? : SSW and cottage supervisor and counselor

Roy LCP, Niyati Gupta - 10/24/2023 2:02 PM PST

DOMAIN 6 - Strengths*Client's social supports, hobbies, interests :* She continues to isolate herself from her peers but has developed a close relationship to one of her cottage staff and is able to express positive and negative emotions to her. Client continues to miss her parents and cousin and expresses needing them everyday.*Social Relationships/ Communication Skills Impairment :* Yes*Symptoms :* Limited identification and expression of emotions.*Behaviors :* Aggressive and crying*Impairments :* Client is unable to express herself causing limited social relationships.*Client's Strengths :* Adriana continues to be a caring and affectionate child. She is able to show verbal and physical affection and is able to express her emotions at times. She also has a close relationship with her family of origin including with her parents and cousin. Client has also become more receptive to therapy.

Roy LCP, Niyati Gupta - 10/24/2023 2:06 PM PST

DOMAIN 7 - Clinical Summary*I am a Licensed or licensed waived provider :* Yes*Diagnostic/clinical impression :* Adriana presents with symptoms of PTSD (F43.11) that have increased in the last few months due to continued unstable housing, feelings of abandonment and not processing her previous trauma. Due to the recent trauma of being separated from her cousin, she has developed thoughts of danger to self and continues to meet criteria for Major Depressive Disorder (F32.9). Additionally, her Separation Anxiety Disorder (F93.0) symptoms have increased after the separation from her cousin. Adriana increased her aggressive behavior leading to more physical and verbal aggression. She still continues to cry, wet her bed and report somatic symptoms. She also continued to meet criteria for Enuresis (F98.0) and Sexual Child Abuse (Z62.810)*Determination of: medical necessity, level of care, access criteria :* Due to continued trauma and recent lack of placement stability Adriana continues to meet criteria for Medical necessity. She continues to meet criteria for PTSD, MDD, Separation Anxiety Disorder, Enuresis and Sexual Child Abuse. If untreated, client will continue to fail placements, continue to isolate herself, fall behind in school and is at risk for being placed in a higher level of care. She also meets criteria for PWB leading to her qualifying for ICC/IHBS services.*Treatment recommendations :* Adriana continues to benefit from individual therapy to focus on her trauma and assist her in emotion expression and labeling. Due to an increase in safety concerns, client would also benefit to continue to focus on her safety plan and practicing as needed. Client would benefit from being linked to a TBS coach to focus on her behavioral concerns. Client would also benefit from some family therapy with her cousin to help them to maintain a healthy relationship. Client may benefit from some social groups to focus on her social relationships.*I have completed the assessment and am ready to add a diagnosis :* Yes
